THE MINT.**BRIEF ACCOUNT, HISTORICAL AND STATISTICAL, OF THE BRANCH MINT AT NEW ORLEANS.**

The Branch Mints of the United States were established by act of Congress, on the 3d of March, 1835. The edifice of the New Orleans Mint, occupying, by perpetual grant from the city, what was formerly called Jackson Square, between Barrack and Esplanade streets, Old Levee street and the river, was planned by William Strickland, Architect. The building was begun in September, 1835, and finished in 1838, at a cost of \$182,000. Total length, including the wings, 282 feet; depth of the main building 108 feet. The wings are 29 by 81 feet. In addition, the iron fence inclosing the square, out-door improvements, the machinery, furnaces, fixtures, apparatus and implements, cost near \$118,000, making a total cost of near \$300,000. The annual expense to Government, in maintaining the Mint in operation, is about \$52,000.

It will be seen below that the coinage of the present year, thus far, falls proportionately short, when compared with 1843 and 1844. This result has been solely owing to the state of Foreign Exchanges, which were against us in the early part of the season.

The first appointment of officers to this Mint was made in March, 1837, as follows—

David Bradford, Superintendent; removed in 1839.

Edmond Forstall, Treasurer; removed in 1839.

James Maxwell, Melter and Refiner; died in 1839.

Rufus Tyler, Coiner; died in 1839.

William P. Hort, Assayer.

In 1839, the Mint was reorganized by the appointment of the following officers:

J. M. Kennedy, Superintendent.

H. C. Cammack, Treasurer; removed May, 1845.

J. L. Riddell, Melter and Refiner.

P. B. Tyler, Coiner.

William P. Hort, still holding the office of Assayer.

Such is the present organization of the Mint, excepting the office of Treasurer, to which J. R. Macmurdo was appointed in May, 1845. We may add the following, appointed by the Superintendent—

F. W. Smythe, Clerk, annual salary,	\$1200
-------------------------------------	--------

Martin Kennedy, Weigher,	1200
--------------------------	------

John Brooks, Foreman of Coining Department,	1200
---	------

Salary of Superintendent,	2500
---------------------------	------

Treasurer, Assayer, Coiner, Melter and Refiner each	2000
---	------

Residences in the Mint edifice are held by the Superintendent, Coiner, Melter and Refiner.

There are employed in the coining department 13 work-

men, besides the foreman; in the melting department 5; in the assay department 1; in the weigh room 1; as door keepers, night and day police, 6. The average pay of these men is about \$60 per month each.

From the peculiar position of New Orleans, it seems probable, now, that this Mint will, in the future, subserve much more important national purposes than were at first generally contemplated. The amount of native gold annually raised in Alabama is greatly on the increase; the acquisition of Texas will, ere long, bring us abundance of silver and gold, from the rich mines of San Saba, within her borders, and, ultimately, much of the produce of the numerous and abundantly productive mines of the adjacent Mexican States. Precious metals unquestionably abound in Western Arkansas, and great abundance of silver, associated with copper, etc. has lately been found in the copper regions bordering upon Lake Superior. A fair portion of all which, this Mint will probably be instrumental in transforming into current coin. Moreover, we should bear in mind that vast hordes of Foreign emigrant coins, for which cotton, sugar and Western produce are exchanged, by this institution are put through a process of naturalization, by which they become wholly Americanized, and induced to remain permanently in the country.

Rates of Postage on Letters, &c.

	Cents.
<i>Letters</i> .—For a single letter, not exceeding half an ounce (avoirdupois,) sent not exceeding 300 miles,	5
Sent over 300 miles,	10
For every half ounce, and <i>any</i> excess over every half ounce, the same rates of postage; and when advertised, two cents on each letter, or <i>four</i> cents, if the advertising cost so much, additional.	
For drop letters (not to be mailed) each,	2
<i>Circulars</i> .—For any printed circular, handbill, or advertisement, unsealed, sent any distance,	2
<i>Newspapers</i> —Of 1900 square inches or less, sent over 30 and not more than 100 miles, or any distance within the same State,	1
Sent over such distance,	1½
Not exceeding 30 miles,	free.
<i>Pamphlets</i> .—For any pamphlet or other matter of “every kind,” that is “transmittable by mail” and has no written communication, of one ounce or less or for a newspaper exceeding 1900 square inches of surface,	2½
For each additional ounce, or an excess greater than a half ounce,	1

A trial of the weight of six varieties of writing paper, three of letter paper and three of foolscap, and two kinds of envelopes, large and small, shows the following result as the weight of each single sheet on an average of ten sheets of each kind. The papers are all of good quality, and such as we are all used to, for size and weight—

<i>Letter</i> —1st variety, 136 gr.		<i>Foolscap</i> —1st var'y. 172 gr.
Do. 2d do. 134		Do. 2d do. 169
Do. 3d do. 131		Do. 3d do. 161

Small envelope 42 grains—large envelope 62 grains; Wafers, usual size, 1 grain; Sealing Wax, usual quantity, 5 grains.

The ensuing deductions are based upon the heaviest paper, to keep within the mark. An avoirdupois half ounce is $218\frac{3}{4}$ grains. We may therefore send as a single letter:

1. One and a half sheets of letter-paper, sealed with wax or wafer.

2. One sheet of do. with large or small envelope, wax or wafer.

3. One sheet of foolscap, with small envelope, sealed with wafer.

4. One sheet of letter-paper, with a quarter eagle (\$2 50) enclosed, and secured with wax, and the letter sealed with wax.

5. Half a sheet of letter paper, or light foolscap with a half eagle enclosed, secured and sealed with wafers.

6. A sheet of letter paper may contain a dime and a half, or a half sheet may contain a quarter dollar.

7. A sheet of letter paper may enclose seven bank notes, and be sealed with wax; or three bank notes, and the whole in an envelope.

Carriage Rates.

ORDINANCE OF THE GENERAL COUNCIL.

For every trip from one municipality to the other within the unincorporated limits, not more than twenty-five cents shall be charged or received from each passenger.

For every trip out of the incorporated limits, whether made from within the incorporated limits to the unincorporated limits, or from the unincorporated limits to the incorporated limits, or to any part of, the municipalities Nos. 1, 2, and 3, no more than fifty cents shall be charged or received for each passenger.

That after sun-down, the drivers or owners of carriages shall be entitled to charge double fare for each passenger, as set down in the foregoing sections.

For every trip from either of the municipalities Nos. 1, 2, and 3, to the lake shore via the Bayou road, or the Shell road of the New Orleans canal, no more than five dollars shall be charged for the whole carriage.

Provided, that in case said carriage shall be detained by the persons hiring the same, beyond sun-down, the driver of said carriage shall be entitled to charge one dollar for every hour of said detention after sun-set, as aforesaid.

Any owner or driver of a carriage who is at any of the stands, day or night, who shall refuse, either to a number of persons, or to a single person, to convey them or him to the places comprehended to be within the measure of the ordinance, and upon the terms set down in the same, shall be liable to a fine of from ten to one hundred dollars, for each contravention, at the discretion of any competent Court before which suit shall be instituted for the recovery of the same.

Any owner or driver of a carriage, may, upon agreement with passengers, charge at the rate of one dollar per hour for the use of the whole carriage for four persons:

Provided. That the owner or driver shall be allowed to charge at the rate of one dollar per hour, should only one person desire the use of his carriage.

Every owner or driver of a carriage shall be bound to have the present ordinance framed, hung up and kept in constant repair in some conspicuous place of his carriage, in default whereof, he shall be liable to a fine of twenty-five dollars, recoverable before any Court of competent Jurisdiction.

All ordinances or parts of ordinances not in conformity with the meaning of the ordinance, are hereby repealed.
